

# GRASPING NETTLES ONLINE PLAY GUIDE

This is a guide for using the virtual whiteboard Miro to play *Grasping Nettles* online with your friends. The steps assume you have your own way to hop into voice, video, or text chat with your friends and also a way for each player to roll a d6. I usually just roll one at my desk.

## Step One: Create a Miro Account

Set up a free account at <https://miro.com>

## Step Two: Open and Duplicate the Template

<http://graspingnettlesonlineplay.adamebell.games> will redirect you to the template board that has all of the online play assets loaded. Click on the title of the board in the upper left corner of the page (where it says Grasping Nettles Template), and hit the Duplicate button on the popup that appears.

## Step Three: Use Note Pane & Start Play

The Note pane can be accessed by hitting the  button in the top right of your board. Use this to communicate safety tool information as well as the results of your genre & world-pitch discussion.

## Step Four: Play the Game!

Start playing the game. For notecards, use the post-it notes feature in miro using the colors on the Wheel as a key for easy reference.
